# JOHNSON ASKS TWO-YEAR NRA

Seeks Support of Small Business Men Wage Earners and Housewives

## WANTS FACTS MADE KNOWN

Says Short Term Extension Would Plunge Business into Chaos of Uncertainty

(By The Associated Press)

WASHINGTON, May 21.—Plunging into the bitter congressional fight over continuing NRA, Hugh S. Johnson is seeking to muster support for President Roosevelt's two-year extension plan among little business men, wage earners and housewives.

The former recovery administrator for appealed to them last night to tell their senators the blue eagle is not a political hot poker. He suggested that they send petitions giving facts.

Laying aside for the moment his differences with Donald H. Richberg, NRA's present chief, Johnson turned his vocabulary on the organization's critics.

The charge of monopolies comes from monopolists that of oppression from oppressors that of taxation from industrial marauders, he said.

Salting with house Democrats, Richberg and the President against the Senate approval plan to extend the agency only nine and one-half months, the men who helped create NRA declared.

The effect of the Senate bill would plunge all business into blind uncertainty. It would be far better to kill NRA now, let it kill itself outright, might produce the worst business setback since 1932.

Johnson spoke as preparations were made for a rally of NRA supporters in the capital tomorrow. The meeting already was under fire in the Senate where Sen. Nye (R) of North Dakota contended it was a well-financed drive upon the part of NPA of freeholders, code enforcement officials and code enforcement officials to impose their will upon the Congress in the matter of the extension of NPA.

## Issues Statement on Public Works But Shuns Labor's Dispute With Roosevelt

## GREEN VERY IRATE

Labels \$19 to \$94 Rates Set by President Inequitable and Unsound; Warns of Strikes

(By The Associated Press)  
WASHINGTON, May 21.—Declining to enter any controversy over reduction of payments to labor and other phases of the \$4,000,000,000 work program, Sen. Green said today the PWA hourly wage rate will be maintained on PWA projects.

Every man has a right to a personal opinion, but Green only commented on attacks at the new wage schedule by William Green, president of the American Federation of Labor and Ben McFarlan, Democrat of Nevada.

The wage scale for the \$4,000,000,000 program announced last night, ranges from \$19 to \$94 a month.

May Change Hours  
Green did not think there might be a change in hours worked on PWA projects.

I think the PWA wage will certainly be maintained on permanent structures such as buildings and bridges, he said, but hours will depend upon whether we have to work double shifts.

He added the existing 30 hour week on PWA projects might be continued or we might go to 40 hours (the basic number of hours fixed in the schedule announced yesterday by President Roosevelt).

Green indicated he would favor increasing the amount donated by the federal government toward non-federal PWA projects in a demand of the United States conference of mayors.

To Write Recommendation  
I expect to prepare a recommendation which will be given in character and submit it to the President today, he said.

Inequitable and Unsound  
were some of the adjectives Green flung at the wages which would apply on much of the \$4,000,000,000 work program.

Force Local Hand  
I am very much afraid Green said that great social unrest will result from these widely varying rates. There is certain to be discontent and I would not be surprised if it led even to widespread strikes among relief workers.

Wages Not to Be Paid  
Sen. McFarlan, Democrat of Nevada, had already told would criticize at the schedule. McFarlan, leader of the defeated drive to force the payment of wages (paying in private industry) asserted that President Roosevelt's executive order would completely wreck the country's wage scale.

He indicated that he was preparing to attack the wages on the floor of the Senate.

Administration officials denied the new rates which represent a scale as compared with PWA scales would wreck the pay structure. Although issuing no immediate formal statement over their signatures, they indicated the schedule is higher than it may seem at first glance because those affected will work for 12 consecutive months.

Wants Local Consideration  
The security wages, said President Green, are based upon a round premium. They should be determined by conditions prevailing in each locality.

In answer the plans call for a 40-hour five-day week and MR
